THE STATE COLLEGE.

A Movement To Remove the Institution To Some Other City.

Lexington, Ky., Nov. 27.—It became known here that a discussion among several trustees of State college in favor of removal of the institution to some other city in the state, local prejudice being alleged, had crystallized into a definite plan to recommend the step to the next legislature. Of six trustees communicated with five oppose the proposition. The plan here is worth over a million dollars and by reason of the fact that the city gave the grounds upon which it is located, the plan would revert to the city. The government experiment station has a handsome building and grounds in conjunction with the college and the government would have the right to protest should the legislature attempt the action suggested. Judge Henry S. Barker, of Louisville, a member of the court of appeals, is credited with being behind the move. In a statement he favors the removal of the college to Louisville, but says that he is not the father of the plan, which, as far as he knows, has not yet taken official form.

It is a certain cure for croup and will prevent the attack if given at the first appearance of the disease. It is especially adapted to children as it is pleasant to take and contains nothing injurious. Mr. E. A. Umphreys, a well known resident and clerk in the store of Mr. E. Lock of Alice, Cape Colony, South Africa, says: "I have used Chamberlain's Cough Remedy to ward off Croup and colds in my family. I found it to be very satisfactory and it gives me pleasure to recommend it." For sale by Chas. C. Davis, leading druggist.

The citizens of Mt. Vernon are waiting anxiously to see what the newly elected town officials are going to do. Some say that the board of trustees or at least a portion of them do not expect to be sworn in and if they are, nothing will be done, while others say, that the board will try to make some much needed improvements. The time is now up for something to be done in the way of an organization of the city council and the sooner the good work is started the better it will be.

Judge James Hargis and four other nominees on his ticket have filed petitions contesting the election of the Fusion ticket in Breathitt county. The Fusionists claim that they are on the right side and are sincerely hope they are. Let Judge Hargis and all others of his kind step to the rear, where they rightly belong.

The entry of W. B. Halderman in the Senatorial race is generally looked upon by the Paynter "boomers," as a kind of a joke, but when old Joe lands the plum, which he is as sure to do as the Kentucky Legislature convenes some one is going to feel that they have been joked.

A special from Frankfort dated Nov. 28th says: "Frank Hawk Stepp, a sixteen year-old boy from Hanlan county, sentenced to serve life imprisonment for killing his cousin, James Stepp, arrived here this morning, and when he stepped off the train asked a bystander the way to the penitentiary."

A policeman who was standing near questioned the boy, who said that the Deputy Sheriff who had him in charge got drunk in Lexington and was unable to take charge of him, so he was going to the penitentiary by himself to serve his time.

The officers boarded the train and yanked out the drunken deputy, whose name is Tom Ward, and after obtaining the commitment papers from him locked him up in the workhouse.

The boy was taken to see Gov. Beckham before he was formerly incarcerated in prison, and told a pitiful story. He said he was sorry he had killed his cousin, which he had done with an ax, and that he concluded it was his duty to try to do penance by serving out his sentence rather than to escape from the drunken officer, which he could easily have done.

It is likely that a strong effort will be made to have the boy pardoned or sent to the School of Reform.

SNIDER.

Never seeing Snider in the Signal we will endeavor to give a few items from here once and a while. Snider is near the foot of Gay Hill, and promises to be something of a passing point in the future. The L. & N. R. R. has already made about \$100 improvements the past summer in the way of section houses and grounds and we expect in the near future to have a depot and night office as the business of the road will demand something of this kind at this point.

Dave Grant and family have moved into the new section house just finished, and Old Capt. S. P. McClure will move into the large one next week. We had the pleasure of hearing the Rev. Mr. Rowley give his lecture at Fair View church Thursday night the 22nd and it was different from the old ghost stories and brindle steer tales usually heard and we could not help but notice how much difference there is in the young people behaving. It would be well for the Rev. Rowley to come again or some one like him.

GREAT LAND GRAFT.

How the Crooks Work in the Indian Territory.

The national council of the Creek Indians has prepared a petition to Congress asking relief from the grafters who are busy with the owners of what are known as the "nigger lands."

The negro owners are descendants of the slaves once owned by the Five Civilized Tribes of Indians, but freed by act of Congress in 1866. In the allotment proceedings they are known as "freedmen," to distinguish them from the Indian allottee, with whom they stand on an equal footing, except they are permitted to sell their surplus lands at any time, whereas the Indian is hedged about by restrictions which can be removed only by the consent of the Secretary of the Interior.

In the last two years more than 10,000 negroes have received a quarter section apiece of the finest of farming lands with an unrestricted right to sell all but a forty acre homestead, and this has drawn to the Territory all the expert crooks in the land business from every where in the United States.

In many cases the grafter works the following scheme to get the land from the negro: He bargains for a certain part of the land, say 40 acres, for a certain sum of money. Taking advantage of the ignorance of the negro, he makes out the papers for the entire tract of 100 acres or more. Of course, the seller makes a kick when he finds out what has been done to him, but it does him no good. He simply his word against the grafters and "nobody will believe a nigger." Besides there is a general disposition to take the view that, as he got pay for 40 acres and still has his homestead of 40 acres left, because homesteads cannot be sold inside of 21 years—he got enough anyway.

This form of graft is simple and generally safe enough, but it is open to the serious objection that it calls for the payment of at least a part of the price in actual money. In order to escape this hardship the grafter has a cheap way of getting the land. The Government regulations permit an owner of the land to lease it to another party for agricultural purposes for a period of five years. The crook takes advantage of this provision and contracts with the negro for a five year lease. Since the darky does not know the difference between a lease and a warranty deed, it is an easy matter to get him to sign a deed under the impression that he is simply giving a lease. Here, again, there is a scant sympathy for the injured party. He still has his homestead, and as he cannot sell that under any circumstances for a period of 21 years, it is hoped he may know better by that time.

In fact, if the grafters were content to confine their work to separating the Indian Territory

freedman from his real estate the probabilities are that nobody would be disposed to interfere.

It is only when he displays a pernicious activity in the line of robbing the white man who buys the land from him that the public conscience takes alarm.

One scheme is this: When the new comer gets possession of a piece of land he makes out a lease of it for five years in favor of a confederate. This lease is not put on record until after the land has been sold. As soon as the buyer pays the money, but before the deed is put on file, the confederate files a five year lease on the same land.

In a recent case of this kind the purchaser had paid \$2,000 for 120 acres. When he went to take possession he was confronted by the man who held the lease and was told that he could not get on the place for five years except by paying up the lease. He paid \$5,000 and was permitted to occupy the land.

Occasionally it happens that a freedman gets hold of a particularly valuable tract and wants to keep it. In such cases it sometimes becomes necessary for the grafter to make use of the latest and most complicated machinery. This is one of the systems as followed in recent case, where an old darkey had secured a valuable quarter section of choice bottom land.

The first member of a gang appeared as a sewing machine agent and sold him a machine, taking a mortgage on a young calf for part of the price. A few days later another member of the gang showed up a stock buyer. Of course he took a violent fancy to that calf and offered such a big price in cash that the old darkey forgot all about the mortgage and sold it to him, laying himself liable to a penitentiary sentence.

In the third act another member of the gang appears and arranges the mortgage on the charge of selling the mortgaged property. About the time he has him properly scared, a jack-leg lawyer, the fourth member, turns up. Of course he saves the darkey from the pen, and the lawyer gets three fourths of the choice bottom land as his fee, which is divided among the gang.

The subsequent history of this particular tract is of interest, because it shows what this same gang did to the farmer who bought the land. It was sold to an eastern buyer, who paid \$15,000 down at the time of purchase. As an inducement to get him to buy he was told that their "loan company" would loan him \$500 on the land. He made the loan but discovered when too late that he had been deceived in making out the papers, and instead of giving a land mortgage he had been duped into giving a trust deed conveying the property to the creditor without notice if the loan was not paid at the minute of maturity.

CROUP.		
Not a minute should be lost when a child shows symptoms of croup. Chamberlain's Cough Remedy given as soon as the child becomes hoarse, or even after the croupy cough appears, will prevent the attack. It never fails and is pleasant and safe to take. Sold by Chas. C. Davis, the leading druggist.		
Politics in Paintsville seems to be 200 in the shade, while the blackest of all earthly stains—ingratitude—stands out upon her brow like Chimborazo above her neighboring heights." All of this because John C. C. Mays was defeated for Councilman.		

Be Sure to Use Only Cream of Tartar Baking Powder

Food made with alum baking powder carries alum to the stomach unchanged. Scientists have positively demonstrated this and that such food is partly indigestible and unhealthful.

Capt. Smith, our efficient section foreman, made a trip over the road this week with the other foremen, inspecting the different sections. Messrs David Hurt and William Brooks went from Broadhead on the tie same mission. The L. & N. paid all expenses and the hundred or so foremen had a most enjoyable trip, the object of which was to exchange ideas on business.

A FEARFUL TALE. It is a fearful tale to have to endure that a terrible torture of piles. "I can truly fully say," writes Harry Colson, of Madisonville, Iowa, "That for blind, bleeding, itching and protruding piles, Buckner's A. C. Salve, is the best cure made." Also best for cuts, burns, and injuries. 25c at Mt. Vernon Drug Co's, drugstore.

M. G. Tillett is here from Lancaster buying mules. He has purchased one pair cotton mules at \$250 and a mining mule at \$75. Mr. Tillett is a hustler and always willing to pay top prices. He and Mr. William Burton, of Lancaster, trade together and are always as liberal with sellers as any firm. Both excellent gentlemen. Since foregoing was put in type this morning Mr. Tillett bought of Eugene Burdette Brown a pair of mare mules for \$275. Mr. Tillett will be in Mt. Vernon, Monday, Dec. 11th to buy mules.

Says the Kopskville Kentuckian: The Hon. John C. Carlisle's swollen leg is better and he is out of danger. Some of the defeated candidates in this county whose legs were pulled till the joints cracked, know how to sympathize with any one who has a sore leg.

The Committee of the Feeble Minded Institute at Frankfort, in their annual report ask for an appropriation for the enlargement of that institution. It has 186 inmates and is badly crowded. A million dollar hotel company is being projected in Lexington, with the Phoenix Hotel Company as a nucleus. D. F. Frazee, president of the Phoenix company, has bought Garrett D. Wilson's stable, which adjoins the hotel.

THE above picture of the man and fish is the trademark of Scott's Emulsion, and is the synonym for strength and purity. It is sold in almost all the civilized countries of the globe.

If the cod fish became extinct it would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate people, and all conditions of wasting and lost strength.

LOCAL

Twenty five days till Christmas. There were Thanksgiving services at the Presbyterian church.

Mrs. J. M. Black, who used to be Miss Annie Fish, of Crab Orchard, died in New Mexico last week, where she had gone for her health.

Cosie Sutton has purchased the stock of goods of Mr. M. B. DeBord at Elrod, Pulaski county. His father, B. F. Sutton, will take charge and run the store.

C. G. Henderson, the oil man, left Wednesday with his machinery to begin a well on Skuge creek. Besides Mr. Henderson, the majority of those interested are Rockcastle people.

A first class photographer, Mr. Cable, will be in Mt. Vernon next Monday or Tuesday and if you desire to have a good picture taken, leave order at the Signal office.

It is suggested that it would simplify matters and facilitate business if subscribers to telephone would give the number of their phone instead of answering "hello." Try it.

Andrew Jackson, one of the boys who run one of the saws at the hindle factory here for months but resigned to accept a position in a wagon factory in Louisville, had his right hand sawed off just above the wrist, Wednesday. He is an industrious and upright young man and we regret very much to hear of his sad misfortune.

The children under ten years of age are requested to write Santa a letter and address same to this office which will be printed in our Xmas edition. A prize of \$1.00 will be given to the one writing the best letter. All letters must be written by the child without any assistance and if they bear the mark of assistance from older heads same will not be published or considered in the contest. All letters must be in by Dec. 15th.

The Brodhead people have always been regarded as among the most enterprising in the county and this will be further demonstrated when the big illustrated Christmas edition of The Signal is printed containing a picture and write-up of every business and professional man in that progressive city. The people all over the county are specially interested in that edition and we can conservatively state that it will eclipse any number ever printed in Rockcastle. We are leaving no stone unturned to accomplish that end. Now is time to subscribe.

A special from Cincinnati says After safely circling the West on the tops of passenger cars, purely for love of novelty, it would seem, John C. Vanhook, of Somerset, and L. C. Stemple, of Indianapolis, a traveling salesman for Montgomery Ward & Co., were killed in Cincinnati Wednesday night by being swept off the top of a Big Four passenger coach by the Carr-street bridge, which barely grazes the car tops. A few moments later a second train ground into the still mangled. Both were well supplied with money and Vanhook had a note for \$280 from S. M. Vanhook, payable at Somerset.

John C. Vanhook was a son of S. M. Vanhook, of Level Green, and the remains were brought to Somerset Tuesday night and to Level Green Wednesday for burial.

A WONDERFUL DOG: Some two weeks ago, our townsman, Willis Adams went to Wilton, Knox county for a few days hunt, taking with him his favorite bird dog. After completing his hunt returned to his home here but left the dog with his son in Wilton. One morning this week, the dog came in home, which was quite a surprise to his master, but nothing was thought about how he made the trip. As dogs have been known to travel many miles all alone, to get back to the home. A later investigation showed that the dog had traveled the way to Woodbine a distance of four miles from Wilton and making himself a most congenial passenger was allowed to remain on the train, until Mt. Vernon was reached, when the dog alighted from the train and trotted off to his home apparently as happy as a ten year old child, which had been absent from its parents for months.

The Brown Memorial School is flourishing and its many friends are well pleased.

When you have a visitor or expect to visit some friend, remember it is a courtesy you owe them to report some to your local paper.

As we have no marshal, we take it for granted that the boys will have all the fun they want to shooting fireworks during Xmas.

The many friends of Homer Wallin were more than glad to hear that he had been acquitted for killing a man while on the police force at La Follette, Tenn. Homer has always conducted himself in a splendid manner and those who know him have been confident all the while that when the case came to trial he would be vindicated. Having done so, we are glad that which was necessary to save his own life.

The recent Fourth State Development Convention held in Louisville last month has been the means of attracting to Kentucky a greater interest than has been shown in years past by many men all over the country. A remarkable development is now going on in the state, and never before has such splendid opportunities been presented to capitalists for safe and profitable investments all over Kentucky as at the present time. So wide has been the interest shown in Kentucky's future, the New York Commercial, the leading daily trade journal of the metropolis, has decided to issue an edition devoted exclusively to Kentucky and her wonderful resources. A staff representative of that paper has just visited Lancaster and he informs the Record that the resources of Garrard county will be fully presented in the forthcoming edition. We believe an era of greater development along industrial lines is now commencing all over the State and that in a few years Kentucky will rank with any of the great States of the Union in manufactures and the varied industries that go to make this the greatest country in the world. As above stated, Lancaster and Garrard county expect to be in the push, doing their part and receiving their reward along with the rest in this great work.—Lancaster Record.

reckless use of fire arms. Look out, Miss Jennie Davis, of Mt. Vernon, is spending a few days with Miss Bettie Kicks and for this reason trains have had to pass Brodhead water tank.—The Young Men's Club is progressing nicely. They have 17 members now and have a great deal to do with Brodhead's society being so well. Among us we have the finest of old Rockcastle's sons and one of our boys who deserves especial note as a poet. He is there with the goods, is one E. R. Gentry who composed the following on our club: THE BRODHEAD YOUNG MEN'S CLUB

We are the rag time millionaires, Looking for some one to love; Abho! our millions are in our dreams,

We have treasures hid up above, Safe and sound, sweet and true, this is the place,

They're dressed in black, blue or brown;

Just try us for the handsomest men,

And the jolliest fellows in town.

At first they were quoted at five cents apiece,

but as sure as I am alive; Since they refuse to purchase at all,

We are offering them two for five

And remember there's no scarcity, girls,

We have a few less than a score;

And here's the nicest part of all. They're delivered right at your door.

Then here's to the Brodhead Young Men's Club.

She'll stand "Father Time's" own test;

If more you would know, we'll ask you to go,

And learn by experience, the rest.

So let the old wheel of fortune roll round and round,

Let her tear out a spoke or a hub; But we'll answer all when the roll is called.

The members of the Brodhead Club

Let us resolve that we will be worth more to ourselves, our country, and above all to our Lord, during the year 1906 than we have been during the year 1905.
